GLOBAL GRANTS COMMUNITY ASSESSMENT RESULTS

Use this form to report community assessment findings to The Rotary Foundation when you apply for a global grant.

Assessing the strengths, weaknesses, needs, and assets of the community you plan to help is an essential first step in designing an effective and sustainable global grant project. See [Community Assessment Tools](#) for full instructions and helpful tips.

This form will help you report the results of your community assessment, and it's required when you apply for any humanitarian or vocational training team grant. Complete a separate form for each beneficiary community (e.g., school, health care system, or village), using information that is both current and specific to each community. Remember, you can't use global grant funds to cover the cost of doing an assessment, but you can use district grant funds.

COMMUNITY OVERVIEW

Describe the characteristics (such as geographic information, main sources of income, population size, and access to education and health services) of the specific community where this project will take place.

COLLECTING COMMUNITY ASSESSMENT DATA

When you conducted the assessment, who in the community did you speak to? At least two different community representatives and beneficiaries who are not involved in Rotary (such as teachers, doctors, or community leaders) should be included in the discussions.

When in the last year did the discussions occur?

Step 3: Project Overview

Tell us a little about your project. What are the main objectives of the project, and who will benefit from it?

We're only asking for a general idea of the project. Try to be as concise as possible here. We'll ask you for details later in the application.

Special professional training for social workers supporting street kids in Sao Paulo / Brazil. With this Global Grant Project, we will provide a special professional training to therapists, social workers and assistant staff who work with street kids in Sao Paulo. Up to now there are no formal trainings or college courses which focus on the specific problem areas of highly traumatized children.

Moradia Associação Civil (Casa Taiguara) - refer to <http://www.casataiguara.org.br> - is a NGO which assists street kids in Sao Paulo since about 20 years. The target of Moradia Associação Civil (Casa Taiguara) is to provide help and shelter to children who escaped from their families because of sexual abuse, alcohol, drugs or violence and live on the streets of Sao Paulo. Casa Taiguara receives those kids in one of the four shelter houses and provide help, therapies, schooling, living surrounding etc. often in a year-long process - with the intention to offer a better perspective for the future live of these kids and young people.

To substantially enhance the success rate of this work with highly traumatized children, we have identified during several site visits and discussions that the people working with the kids should receive a specialized professional training. In total 300 participants shall be trained in a time frame of 2.5 years.

The training will be organized by Casa Taiguara, the training sessions will be provided by four selected external specialist. The program shall run over two and a half years, in training modules. Each module will end with an examination and a certificate to the participant. All learning contents can directly be applied in the day-to-day work with the street children. The learning concept is innovative since there is no formal education around highly traumatized kids in Brazil yet. Casa Taiguara has got 20 year of experience in this special field which will be used as input to the training modules as well.

The participants will learn to handle and improve the deficiencies of the street kids far better. The training will provide a work structure enabling the participants to work for longer time in the very demanding surrounding. According to state surveys about 50% of the social workers or therapists withstand only two years working with street children before they quit - often with mental problems. The training will provide tools and methods to prevent this early wear-out. At the end both, street children and the professional staff will benefit from the training sponsored by this Rotarian Project.

Step 4: Area of focus

Which area of focus will this project support?

Select at least one area. Note that we'll ask you to set goals and answer questions for each area of focus you select.

- ☒ Peace and Conflict Prevention/Resolution
- ☐ Disease Prevention and Treatment
- ☐ Water and Sanitation
- ☐ Maternal and Child Health
- ☐ Basic Education and Literacy

General idea of the project

Identify :

- “what” the project will do
- location
- impact/timeframe/need
- cooperating organization website
- experience
- benefit to target community
- current research/facts/statistics

☐ Economic and Community Development

Step 5: Measuring success

Which goals of this area of focus will your project support?

We'll ask you questions about the goals you choose, and at the end of the project, you'll report on your results for each goal. Each area of focus has its own set of goals. Select only the goals that your project will address.

Training leaders, including potential youth leaders, to prevent and mediate conflict

How will you measure your project's impact?

Use only measures that are clearly linked to your goals and will demonstrate the project's impact on participants' lives, knowledge, or health. Find tips and information on how to measure results in the [Global Grant Monitoring and Evaluation Plan Supplement](#). (Add rows as needed.)

Measure	Collection Method	Frequency	Beneficiaries
Number of individuals trained	Direct observation	Every month	100-499
Other Exams at the end of training modules	Direct observation	Every three months	100-499

Do you know who will collect information for monitoring and evaluation?

If yes, please provide the name and contact information for that person or organization and briefly explain why this person or organization is qualified for this task. If no, please tell us how you plan to find a person or organization to complete this task.

Yes. Moradia Associação Civil (Casa Taiguara) is a NGO working with street children in Sao Paulo since about 20 years. [name] is executive director of the organization.

Step 6: Location and dates

HUMANITARIAN PROJECT

Where and when will your project take place?

Sao Paulo, Brazil, 2017-12-01 to 2020-06-30

Step 7: Participants

COOPERATING ORGANIZATIONS

Provide the name, website and location of each cooperating organization.

A cooperating organization can be a nongovernmental organization, community group, or government

Your **reports** must contain results for each goal you choose. If you have multiple areas of focus, there will be more goals that need to be measured

Think about...

- Can each goal be measured?
- Will it identify impact?
- How?
- By whom?

These are drop-down choices

Be careful when choosing dates. Sometimes projects take longer than expected (or desired!)

GLOBAL GRANT MONITORING AND EVALUATION PLAN SUPPLEMENT

Global grant sponsors for humanitarian projects and vocational training teams must incorporate monitoring and evaluation measures within the area of focus section of the online grant application. This supplement contains The Rotary Foundation (TRF) standard measures for each area of focus as well as the standard terminology, definitions, and measurement methods. Following these standards helps ensure that the Foundation can track worldwide Rotarian efforts and accomplishments, and publish the results using the definitions used by other nonprofit organizations.

STEPS FOR MONITORING AND EVALUATION PLAN

1. Establish clear project goals.
2. Identify applicable Rotary Foundation standard measures.
3. Identify additional project-specific measures.*
4. Establish baseline data and the methods you'll use to collect data.
5. Submit the plan as part of the online application.
6. Collect data during the project, and monitor progress.**
7. Evaluate data and submit results to the online report. Modify the documentation to include actual results.

*Add only measures that clearly link to specific goals and will demonstrate the project's impact on participants' lives, knowledge, or health.

**When collecting data, be sure to avoid double-counting. When measuring the number of people benefitting from the project, do not simply report on the number of individuals living in a specific community or region.

Note: On the following pages, Rotary Foundation standard terms used in measures are shown in **bold**; definitions are listed in the glossary.

GUIDELINES FOR ROTARY FOUNDATION-FUNDED PROJECT SIGNAGE AND USE OF NAME "ROTARY" OR OTHER ROTARY MARKS

Recipients of Rotary Foundation grant funds should provide appropriate project signage as outlined below (and in section 40.010.2 of [The Rotary Foundation Code of Policies](#)). Please see page three of this document for a sample project sign.

40.010.2. Recognition Plaque for TRF Funded Projects

The Trustees have approved a plaque design as a recommended model for signage to be placed on or in conjunction with Rotary projects that are funded by The Rotary Foundation. Rotarians should include signage on or in conjunction with their projects so as to identify the role of the grant sponsors and The Rotary Foundation in the grant projects.

Project signage is encouraged.
Project funding of up to US \$1,000 can be used to cover signage costs

Step 9: Funding

Tell us about the funding you've secured for your project.

We'll use the information you enter here to calculate your maximum possible funding match from the World Fund. List all of your funding, including cash contributions and District Designated Funds (DDF). (Add rows as needed.)

*Whenever cash is contributed to the Foundation to help fund a global grant project, an additional 5 percent is applied to help cover the cost of processing these funds. Clubs and districts can receive Paul Harris Fellow recognition points for the additional expense.

How much World Fund money would you like to use on this project?

The World Fund can match 80% of the DDF contributed to your project.

The World Fund can match 80% of the DDF contributed to your project.

Step 10: Sustainability

Sustainable projects provide long-term solutions to community problems — solutions that community members themselves can support after grant funding ends. Your answers to the questions below will help us understand the components of your project that will make it sustainable.

HUMANITARIAN PROJECTS – PROJECT PLANNING

Describe the community needs that your project will address.

Street children in Sao Paulo typically suffer severe maltreatment by their families: Sexual abuse, violence, drug problems etc. This makes them leaving the families and search for a "better" live on the streets. Without help from outside the situation worsens further. Street kids on their own often end as criminals

SUSTAINABILITY

For Rotary, sustainability means providing long-term solutions to community problems that community members themselves can support after the grant funding ends.

Start with the community

Identify a need and develop a solution that builds on community strengths and aligns with local values and culture.

Encourage local ownership

Identify key community members who can help pioneer lasting improvements.

Provide training

A project's success depends on people.

Buy local

Purchase equipment and technology from local sources.

Find local funding

Get local funding through governments, hospitals, companies, and other organizations.

Measure your success

Develop clear and measurable project outcomes and determine how you will collect your data.

(drugs, robbery, prostitution, etc.). Casa Taiguara is a NGO that takes care for street children to prevent this "career". The professionals working with street children need special knowledge and training to enhance the success rate substantially. Additionally, the professionals need training to longer sustain working with street kids - which is extremely demanding. Both requirements will be addressed by this project.

How did your project team identify these needs?

Over a timespan of about three years we visited the NGO Casa Taiguara several times and reviewed necessities to improve the work of this institution. Intensive on-site requirement analysis was performed. Among other proposals the project presented here provides the highest impact - and will be the most efficient use of Rotary funds. The proposal was elaborated with the team of Casa Taiguara and reviewed several times before filing this application.

How were members of the benefiting community involved in finding solutions?

By outlining and developing the project.

How were community members involved in planning the project?

They were part of the project concept in every phase. The project was outlined after intensive requirement reviews at site in Sao Paulo.

HUMANITARIAN PROJECTS – PROJECT IMPLEMENTATION

Summarize each step of your project's implementation.

Do not include steps related to fundraising, applying, or reporting. (Add rows as needed.)

#	Activity	Duration
1	Development of training modules	2 months
2	Selection of participants	2 weeks
3	Implementation: Execution of training in modules	28 months
4	Monthly review of training success	two days per month
5	Formal reviews by steering committee every quarter	two days per quarter
6	Intermediate report after year one and year two	one week
7	Final report after 2.5 years	one week

Will you work in coordination with any related initiatives in the community? If yes, briefly describe the other initiatives and how they relate to this project. If no, please explain. Are local initiatives not addressing these needs? Or, if they are, why did you decide not to work with them?

There can be value in working with other groups including governments, nonprofit organizations, and private companies.

Yes. The project presented here will interlink with the pedagogic concept of the NGO Casa Taiguara. For

Community Assessment Results form must be uploaded and submitted with your application

Community members need to be involved in the planning for 'buy-in' and commitment to sustainability. "N/A" is not a good answer!

Ensure the project plan timelines are complete for every stage of the project, and dates are realistic

example, the integrative work with the natural families of the street children. It links also to the psychological therapeutic work with the street children.

Please describe the training, community outreach, or educational programs this project will include.

The training will be delivered by four selected external specialists:

- a) [name], psychologist, psychoanalyst: MAIN FUNCTION: Trainer. DESCRIPTION: He will be in charge of lecturing every lesson.
- b) [name], psychologist, psychoanalyst: MAIN FUNCTION: Trainer. DESCRIPTION: She will be in charge of lecturing every lesson.
- c) [name]: psychologist, psychoanalyst: MAIN FUNCTION: "Follow – up" progress at home. DESCRIPTION: Monitoring progress of "students" directly at their homes.
- d) [name]: sociologist, therapist: MAIN FUNCTION: General supervision of trainer's performance. Quality control. DESCRIPTION: He will monitor the general performance of trainers.

How were these needs identified?

During 20 year of work experience with street children at the NGO Casa Taiguara. Additionally, by analysis of success factors working with street kids.

What incentives (for example, monetary compensation, awards, certification, or publicity), will you use, if any, to encourage community members to participate in the project?

The participants have a strong interest in special professional training to enhance their ability to work with street kids. Additionally, every participant will receive a certification after having passed the related exams at the end of the training modules.

List any community members or community groups that will oversee the continuation of the project after grant-funded activities conclude.

These may or may not be Rotary members or clubs.

[name] - director at Casa Taiguara
[name] - Rotarian host partner
[name] - project leader

BUDGET

Will you purchase budget items from local vendors? Explain the process you used to select vendors.

Yes. The four external trainers were selected because of the following reasons:

- Many years of professional experience in the specific field of expertise the project requires
- The four experts are "researchers in specific areas" (a Global Grant requirement), two of them have a PhD
- They are employed at prestigious Brazilian institutions in the professional areas required

Training is considered part of 'sustainability'. A 'Training Plan for Global Grants' can be completed and submitted with your application

TRAINING PLAN FOR GLOBAL GRANTS

Grant number: Enter text here

Improving people's knowledge and skills is a key component of every global grant. Examples include teacher training, hygiene education, professional training, natural resource management workshops, or skill development. For each training activity included in the project, answer the following questions. Add additional training topics as needed. Share any documents that give details such as the training content or the trainer's qualifications.

TRAINING 1

What is the title of the training?

What is the purpose or goal of the training?

What knowledge and skills will trainees learn from the training?

How did you choose this training?

How will it address any gaps in the knowledge and skills of the beneficiaries that were identified during the community assessment?

Competitive bids are always required. In special circumstances, exceptions may be made by the TRF Regional Grants Officer

Readily available replacement parts are essential to ensure equipment is well maintained and fully functional over time

Local funding sources are important for project sustainability, as is any generated income

- Experienced trainers and supervisors
- Proven records
- Affordable monthly rates

Did you use competitive bidding to select vendors? If no, please explain.

No. The project needs highly specialized professionals (psychologists, psychoanalysts) with knowledge in the field of highly traumatized children. There is no process of competitive bidding in this field.

Please provide an operating and maintenance plan for the equipment or materials you purchased for this project. This plan should include who will operate and maintain the equipment and how they will be trained.

No equipment will be purchased.

Describe how community members will maintain the equipment after grant-funded activities conclude. Will replacement parts be available?

No equipment will be purchased.

If the grant will be used to purchase any equipment, will the equipment be culturally appropriate and conform to the community's technology standards? If yes, please explain. If no, describe how the project team will help community members adopt the technology.

Yes. No equipment will be purchased.

After the project is completed, who will own the items purchased by grant funds? No items may be owned by a Rotary district, club, or member.

No equipment will be purchased.

FUNDING

Have you found a local funding source to sustain project outcomes for the long term? If yes, please describe this funding source.

Yes. The NGO will provide the further funding. Once the training modules have been delivered, the trained professionals will require only an ongoing supervision and feedback loop. This will be contained and delivered by Casa Taiguara.

Will any part of the project generate income for ongoing project funding? If yes, please explain.

No - there will be no money generation

Global Grant Application Process

foundation@rotary7080.org

We recommend

Submitting grant contributions

- do not submit contributions to TRF before the approval email from them has been received
- once received, funds must be submitted asap (*within 30 days*)
- funds can be sent to TRF plus a 5% admin fee. Recognition for contributions and resulting PH points will apply to donors (recommended)
- Or, if sending directly to the project bank account, administration is the responsibility of the project sponsors (not TRF) and no recognition will apply
